

An Important Message for Specialists

WellMed Primary Care Providers have moved to the LeadingReach platform to coordinate referrals for specialist care.

LeadingReach referral management software provided includes:

- The ability to connect and coordinate care with more than 40,000 health care organizations and 150,000 providers
- Improved communication between offices, resulting in fewer faxes and phone calls, thereby increasing staff productivity
- A reduction in staff referral management time with:
 - Digital documents
 - Secure information transmission to and from providers
 - Quick communication via chat function
 - On-demand eligibility verification (coming soon)
 - Prepopulated authorization (coming soon)

To access the platform, specialists need:

- A verified LeadingReach login, which is available to all participating specialists

Scan the QR code to claim your verified LeadingReach login and sign up for training.

About LeadingReach, the company

- WellMed's partner in developing Zephyr, a more advanced platform for primary care physicians to track, monitor and coordinate patient care
- HIPAA-secure, web-based platform that combines the largest connected provider community in healthcare with clinical workflow management tools, secure team-based chat, and document exchange

More time for patient care.
Less time managing referrals.
